main menu:

```
========================================
   INVENTORY MANAGEMENT
========================================
1. Update Inventory
2. View Product by ID
3. Alerts
4. Reports
5. Apply Discount
6. Report Defective Product
0. Exit
Choose an option:
```

HOW TO USE EACH FEATURE

OPTION 1: UPDATE INVENTORY

Steps:

1. Choose option: 1
2. Enter Product ID: 1-18 (Enter a number from 1 to 18)
3. Enter new shelf quantity: (e.g., 20) (Number of items on shelf)
4. Enter new warehouse quantity: (e.g., 15) (Number of items in warehouse)
5. System confirms: "Inventory updated successfully"

Example:

```
Choose an option: 1
Enter Product ID: 5
Enter new shelf Quantity: 5
Enter new warehouse Quantity: 7
[OK] Inventory updated successfully.
```

Tips:

- Shelf quantity = items visible to customers
- Warehouse quantity = items in storage
- No decimal values, whole numbers only
- Can set to 0 if items are <u>out of stock</u>

OPTION 2: VIEW PRODUCT BY ID

1. Choose option: 2
2. Enter Product ID: 1-18
3. System displays product details

Example:

```
Choose an option: 2
Enter Product ID: 5
========================================
   PRODUCT DETAILS
========================================
ID:            5
Name:          Strauss Orange Juice 1L
Manufacturer:  103
Total Qty:     12
Shelf Qty:     5
Warehouse Qty: 7
Location:      Aisle 4
Cost Price:    5.5
Sell Price:    8.9
Min Threshold: 8
```

OPTION 3: LOW STOCK ALERTS

View all products that need restocking (quantity < minimum threshold)

Steps:
1. Choose option: 3
2. System automatically displays: All products with total quantity < minimum threshold

Example:

```
Choose an option: 3
========================================
   LOW STOCK ALERTS

- White Bread Pita Pack | Reason: Moldy | Qty: 1 | Date: 2026-04-16T16:36:16.761763
========================================
```

Report Type 2:Inventory Report by Category
Displays all products from specific categories

Tips:
-You can write more than one category by separating each category with a comma (,)
-If there is a product found in several categories, it will only appear once in the report.
-If a category is not in the system, it will not be displayed.
-Can be displayed by primary category or secondary categories (you can mix them)

```
Choose an option: 2
Enter category names (comma separated): 3%,Salted
========================================
   INVENTORY REPORT
========================================
- Tnuva 3% Milk | Qty: 5 | Location: Aisle 1
- Danone Yogurt 200g | Qty: 45 | Location: Aisle 2

========================================
```

Report Type 3: Order Report
Displays all products that are out of stock.

```
========================================
   ORDER REPORT
========================================
- Tnuva Cream Cheese 500ml | Current: 0 | Minimum: 3
- Nestlé Popcorn 150g | Current: 0 | Minimum: 8
- Palmolive Liquid Soap 500ml | Current: 0 | Minimum: 8
========================================
```

OPTION 5: APPLY DISCOUNT

Steps:

1. Choose option: 5
2. Choose discount option:
   1. Apply Discount to Product by ID
   2. Apply Discount to Category
3. Create a new discount

```
Choose an option: 5
========================================
   APPLY DISCOUNT
========================================
1. Apply Discount to Product by ID
2. Apply Discount to Category
0. Back
```

<u>1: Apply Discount to Product by ID</u>

Create a new discount for a single product (by ID)

Steps:

1. Choose option: 1
2. Enter Product ID: 1-18
3. Enter promotion name: (e.g., "Summer Sale")
4. Enter discount percentage: (e.g., 15 for 15%)
5. Enter start date: dd.MM.yyyy (e.g., 15.04.2026)
6. Enter end date: dd.MM.yyyy (e.g., 30.04.2026)
7. System confirms: "Discount applied!"

Example:

```
Choose an option: 1
Enter Product ID: 10
Enter promotion name: summer sale
Enter discount percentage (0-100): 10
Enter start date (e.g. 15.04.2026): 12.04.2026
Enter end date (e.g. 15.04.2026): 29.04.2026
[OK] Discount applied!
```

Result:

- Product (White Bread Pita Pack) selling price reduced by 10%
- Original price: $6.50
- New price: $5.85 (10% off)
- Promotion active from 12.04.2026 to 29.04.2026

2: Apply Discount to Category
Create a new discount for all products in the same category

Steps:
1. Choose option: 2
2. Enter category name: (e.g., "Dairy")
3. Enter promotion name: (e.g., "Dairy Week")
4. Enter discount percentage: (e.g., 10)
5. Enter start date: dd.MM.yyyy
6. Enter end date: dd.MM.yyyy
7. System confirms: "Discount applied to category"

Example:

```
Choose an option: 2
Enter Category Name: Dairy
Enter promotion name: shavout
Enter discount percentage (0-100): 15
Enter start date (e.g. 15.04.2026): 11.03.2026
Enter end date (e.g. 15.04.2026): 22.06.2026
[OK] Discount applied!
```

Result:
- ALL products in Dairy category get 15% discount

Tips:
- If there is already a discount on a product - the largest discount is the one that determines.
- If an incorrect category is entered - an appropriate message will be received.
- The discount price will affect the sale price only.

OPTION 6: REPORT DEFECTIVE PRODUCT

Steps:
1. Choose option: 6
2. Enter Product ID: 1-18
3. Enter defective quantity: (e.g., 3)
4. Enter reason: (e.g., "Expired")
5. System validates and confirms

Validation Rules:
- Quantity must be > 0
- Reason cannot be empty
- Total defective cannot exceed total inventory (Example: If product has 15 total units and Already reported: 10 defective-Can only report 5 more).

```
Choose an option: 6
Enter Product ID: 1
Enter new quantity of defective items Quantity: 1
Enter reason for defect: Hole in the bag
[OK] Defective item reported successfully. 1 units of Tnuva 3% Milk marked as defective.
```

OPTION 0: EXIT
Close the program

Steps:
1. Choose option: 0
2. System displays: "Exiting..."
3. Program closes

```
Choose an option: 0
Exiting Super-Li System. Goodbye!
```
